Cafe Terrace at Night in 3D

Vincent van Gogh · 1888 · The yellow terrace under the stars

Color key

- **1** Sky
- **2** Stars
- **3** Awning
- **4** Walls
- **5** Cobblestones
- **6** Doors
- **7** Houses & chairs

How it works

1. **Color** the three sheets A, B and C by following the numbers. The starry sky and the faraway houses (A) are at the very back, the cafe terrace (B) in the middle, the cobblestones with the people walking by (C) in front.
2. **Cut out** sheet A along the black frame. For B and C, cut **along the drawing**: throw away all the white above it. Keep the tab at the bottom.
3. **Fold** the L-shaped base on the dotted line: the wall stands up, the floor stays flat. Fold the tabs of B and C backward too.
4. **Glue** A flat on the wall. Glue the tab of B on line “B” on the floor, then the tab of C on line “C”.
5. **Look** from the front: the layers stack up and the painting pops out in 3D. Put it on a shelf!

You need: scissors, a glue stick and your colored pencils. Print on thick paper (cardstock, 160 g/m² or about 60 lb) or glue the sheets onto a cereal box before you cut: they stand up much better.

Tip: you can glue sheet A on the wall BEFORE you color it.
