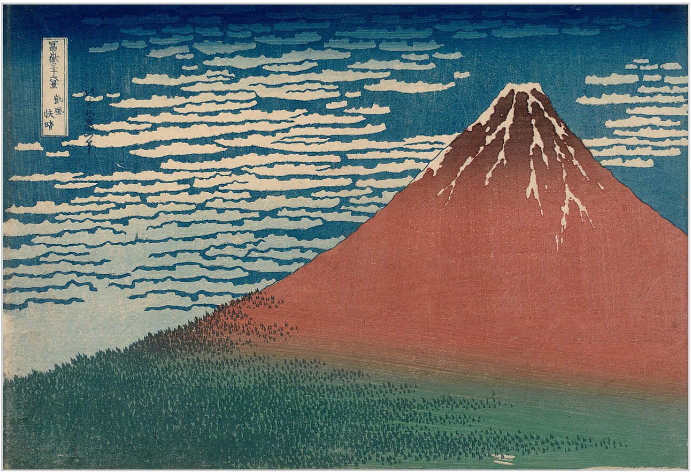
Red Fuji in 3D

Katsushika Hokusai · c. 1831 · The mountain jumps out of the paper



Color key

- 🟥 **1** Mountain
- ⬜ **2** Snow
- 🟦 **3** Sky
- ⬜ **4** Clouds
- 🟩 **5** Forest
- 🟫 **6** Slopes
- 🟦 **7** Light sky

How it works

1. **Color** the three sheets A, B and C by following the numbers. The sky with its clouds (A) is at the very back, Mount Fuji (B) in the middle, the forest (C) in front.
2. **Cut out** sheet A along the black frame. For B and C, cut **along the drawing**: throw away all the white above it. Keep the tab at the bottom.
3. **Fold** the L-shaped base on the dotted line: the wall stands up, the floor stays flat. Fold the tabs of B and C backward too.
4. **Glue** A flat on the wall. Glue the tab of B on line "B" on the floor, then the tab of C on line "C".
5. **Look** from the front: the layers stack up and the painting pops out in 3D. Put it on a shelf!

You need: scissors, a glue stick and your colored pencils. Print on thick paper (cardstock, 160 g/m^2 or about 60 lb) or glue the sheets onto a cereal box before you cut: they stand up much better.

Tip: you can glue sheet A on the wall BEFORE you color it.

BASE · fold on the dotted line · glue A on the wall, B and C on the floor lines

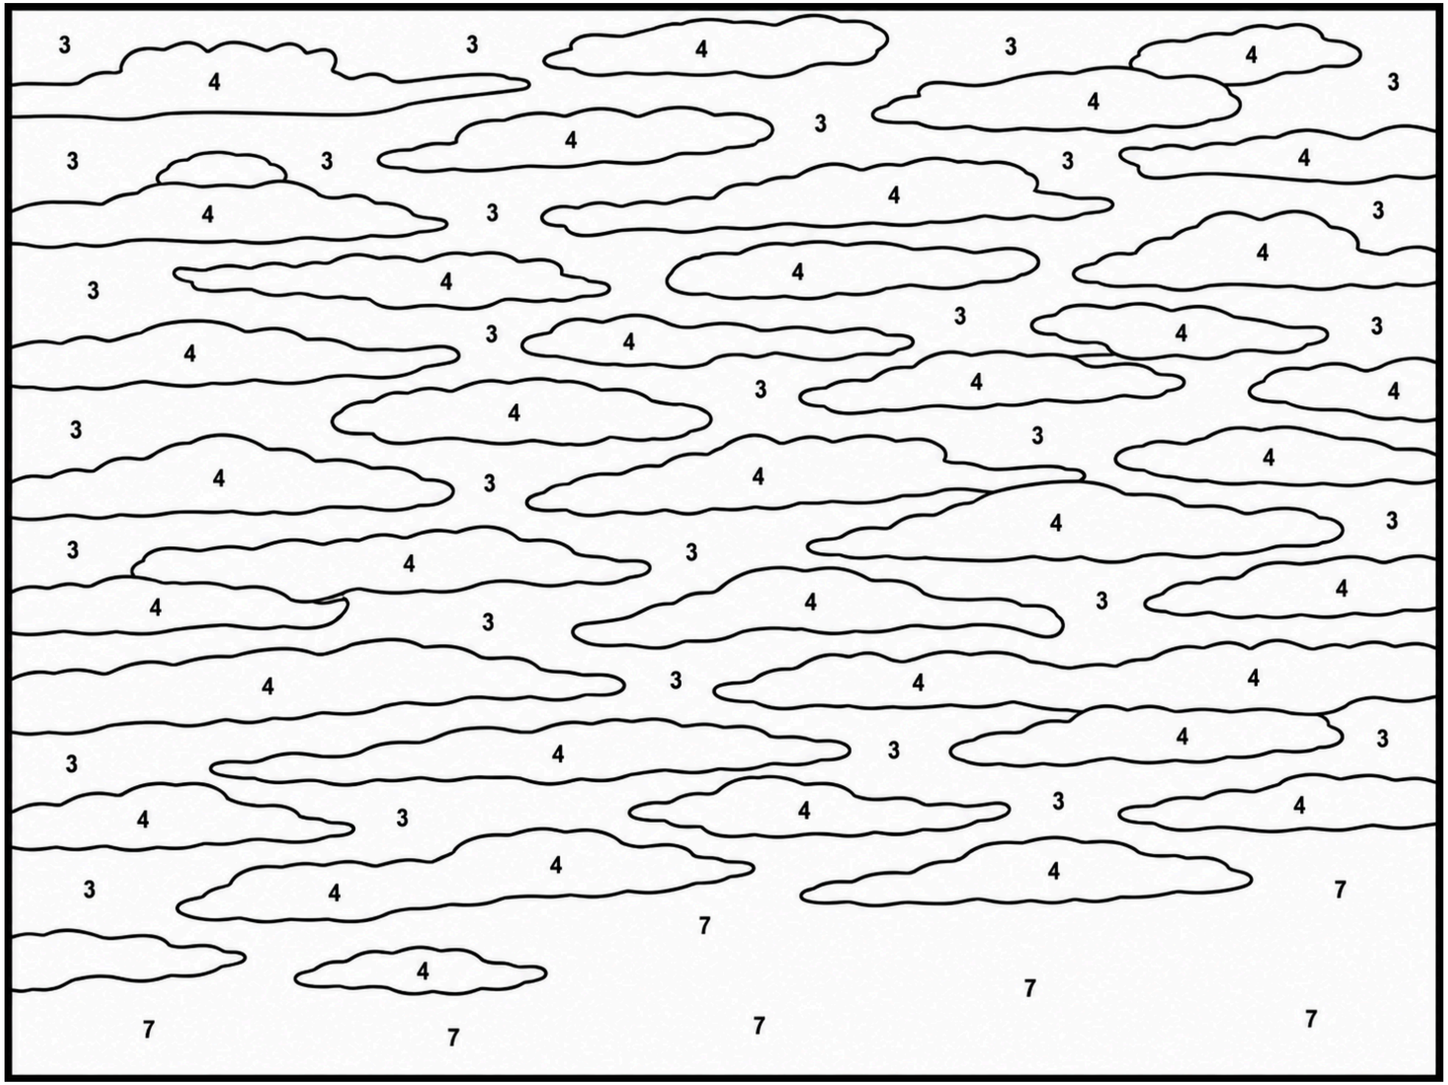
WALL
glue sheet A here, flat

line B · glue the tab of sheet B here

line C · glue the tab of sheet C here

The base is 19 cm wide. The wall is 15 cm tall, the floor 9 cm deep.

SHEET A · THE SKY · at the very back · cut along the black frame · glue flat on the wall



SHEET B · MOUNT FUJI · in the middle · cut along the slopes of the mountain (don't cut the gray dotted line) · fold the tab backward
