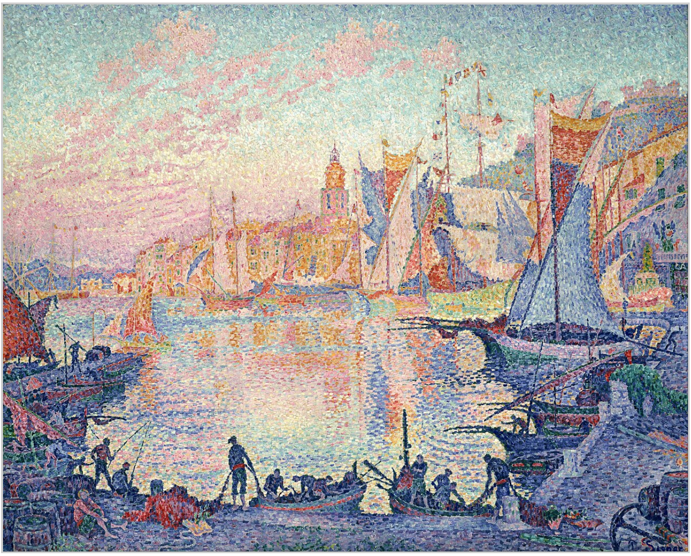
The Port of Saint-Tropez in 3D

Paul Signac · 1901 · The sailboats in front of a harbor painted in dots



Color key

🟦 **1** Sky
🟦 **2** Water
🟧 **3** Reflections
⬜ **4** Sails
🟥 **5** Hulls
🟫 **6** Houses
🟩 **7** Hills

How it works

1. **Color** the three sheets A, B and C by following the numbers. The sky, the hills and the harbor houses (A) are at the very back, the sailboats (B) in the middle, the dock (C) in front.
2. **Cut out** sheet A along the black frame. For B and C, cut **along the drawing**: throw away all the white above it. Keep the tab at the bottom.
3. **Fold** the L-shaped base on the dotted line: the wall stands up, the floor stays flat. Fold the tabs of B and C backward too.
4. **Glue** A flat on the wall. Glue the tab of B on line “B” on the floor, then the tab of C on line “C”.
5. **Look** from the front: the layers stack up and the painting pops out in 3D. Put it on a shelf!

You need: scissors, a glue stick and your colored pencils. Print on thick paper (cardstock, 160 g/m² or about 60 lb) or glue the sheets onto a cereal box before you cut: they stand up much better.

Tip: you can glue sheet A on the wall BEFORE you color it.

BASE · fold on the dotted line · glue A on the wall, B and C on the floor lines

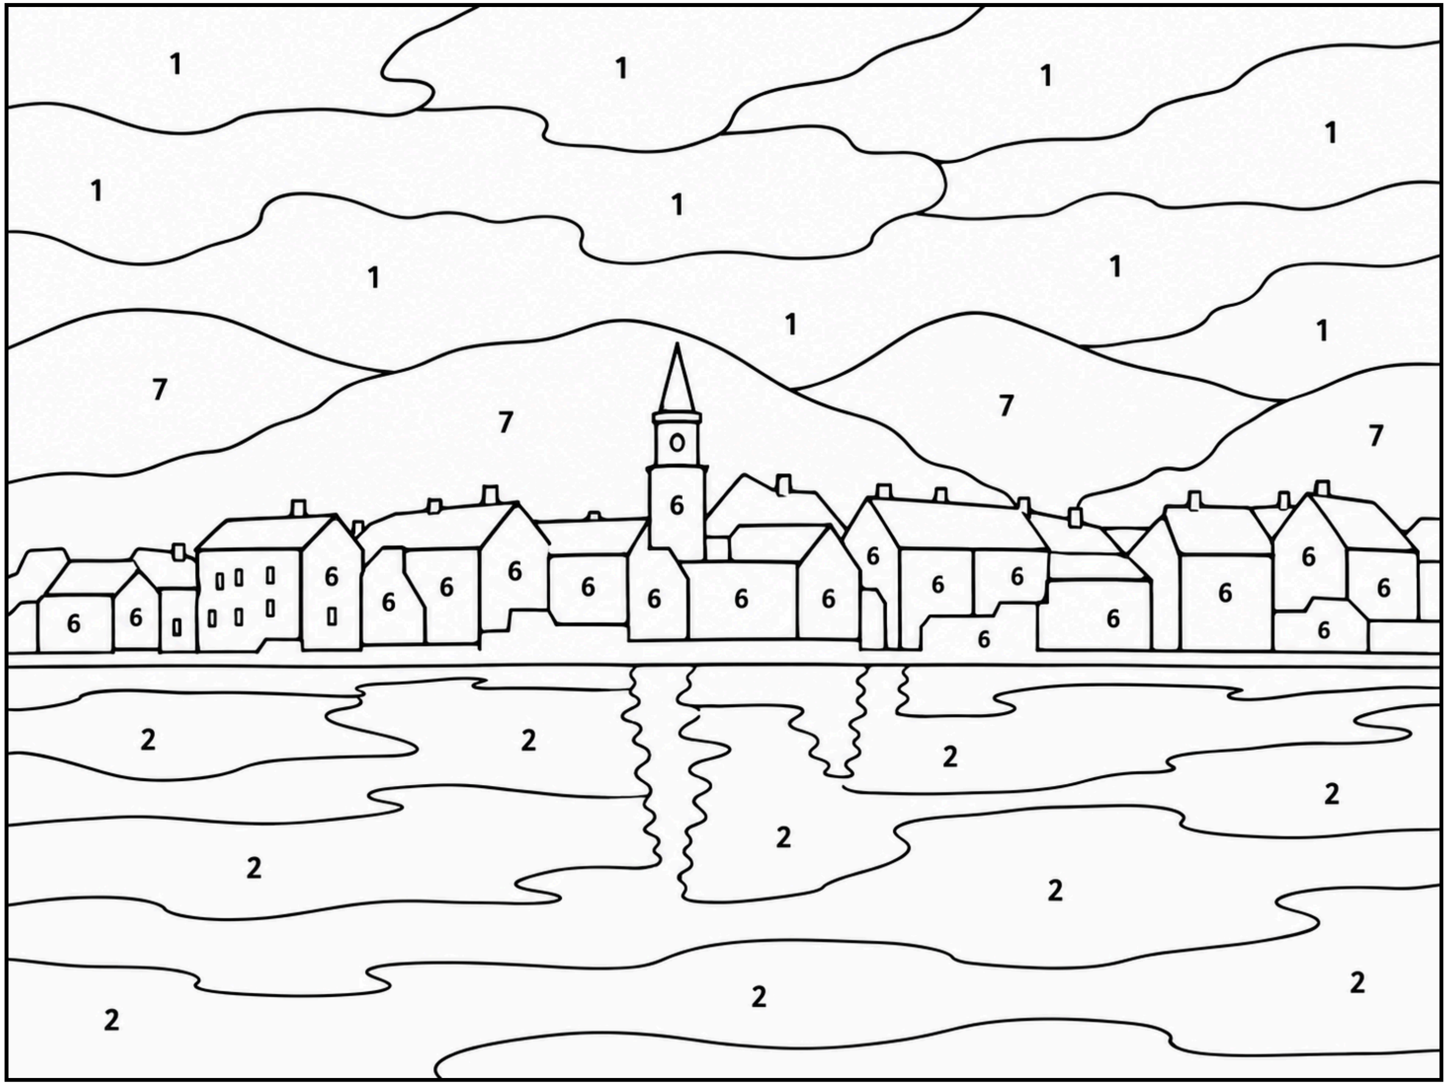
WALL
glue sheet A here, flat

line B · glue the tab of sheet B here

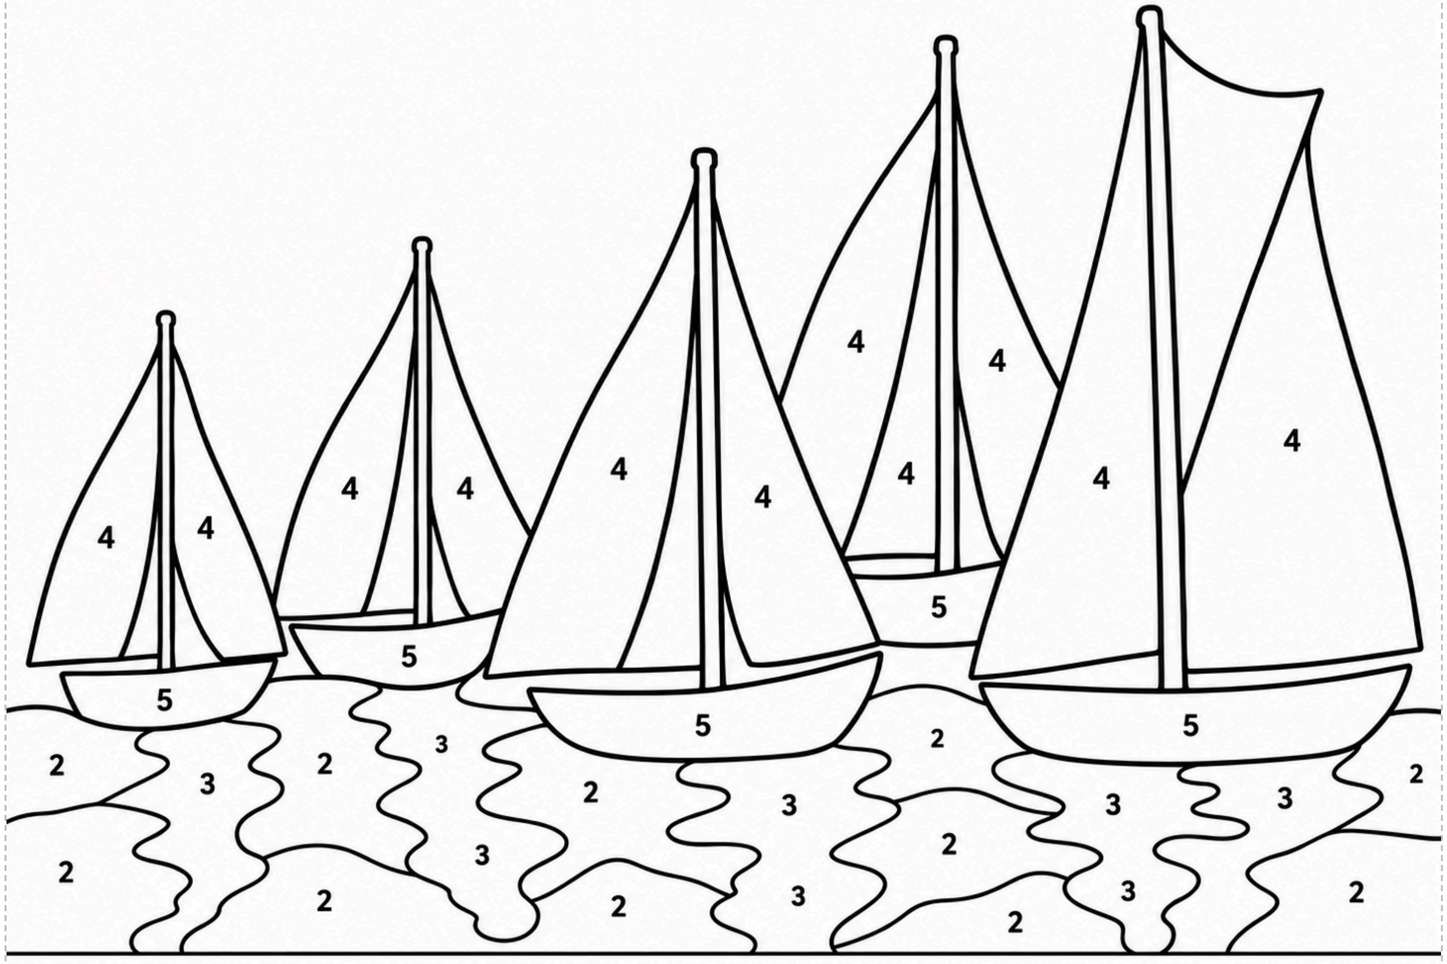
line C · glue the tab of sheet C here

The base is 19 cm wide. The wall is 15 cm tall, the floor 9 cm deep.

SHEET A · THE SKY AND THE TOWN · at the very back · cut along the black frame · glue flat on the wall

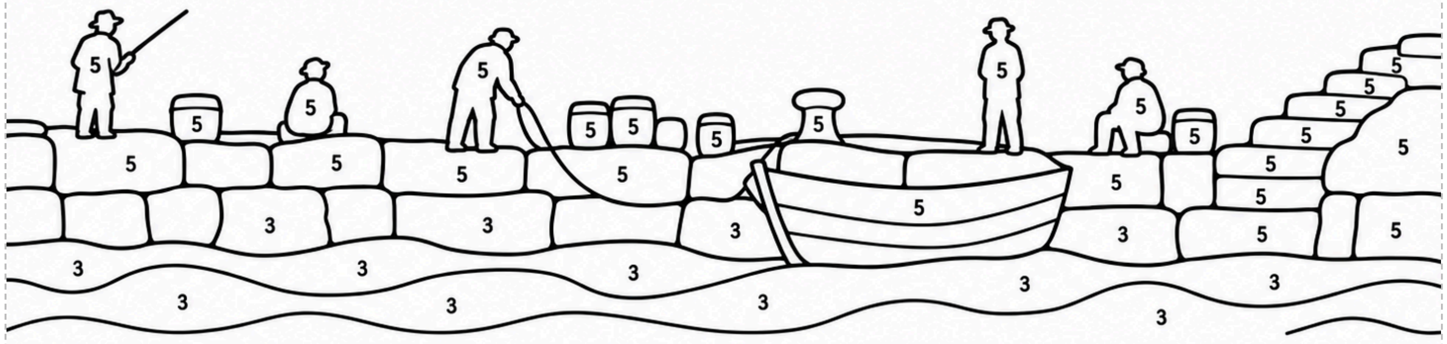


SHEET B · THE SAILBOATS · in the middle · cut along the outline of the sails and the masts (don't cut the gray dotted line) · fold the tab backward



tab · fold here · glue on line B

SHEET C · THE DOCK · in front · cut along the top of the dock (don't cut the gray dotted line) · fold the tab backward



tab · fold here · glue on line C
