The Starry Night in 3D

Vincent van Gogh · 1889 · The painting rises off the table in three layers

Color key

- **1** Sky
- **2** Stars
- **3** Moon
- **4** Cypress
- **5** Houses
- **6** Hills
- **7** Swirls

How it works

1. **Color** the three sheets A, B and C by following the numbers. The sky (A) is at the very back, the village (B) in the middle, the bushes (C) in front.
2. **Cut out** sheet A along the black frame. For B and C, cut **along the drawing**: throw away all the white above it. Keep the tab at the bottom.
3. **Fold** the L-shaped base on the dotted line: the wall stands up, the floor stays flat. Fold the tabs of B and C backward too.
4. **Glue** A flat on the wall. Glue the tab of B on line “B” on the floor, then the tab of C on line “C”.
5. **Build** the standing piece. The cypress stands up all by itself: cut out the two cypresses on sheet D and their slots, slide them together into a cross (top slot into bottom slot), and stand it in front on the left, in front of the bushes.
6. **Look** from the front: the layers stack up and the painting pops out in 3D. Put it on a shelf!

You need: scissors, a glue stick and your colored pencils. Print on thick paper (cardstock, 160 g/m² or about 60 lb) or glue the sheets onto a cereal box before you cut: they stand up much better.

Tip: you can glue sheet A on the wall BEFORE you color it.

BASE · fold on the dotted line · glue A on the wall, B and C on the floor lines

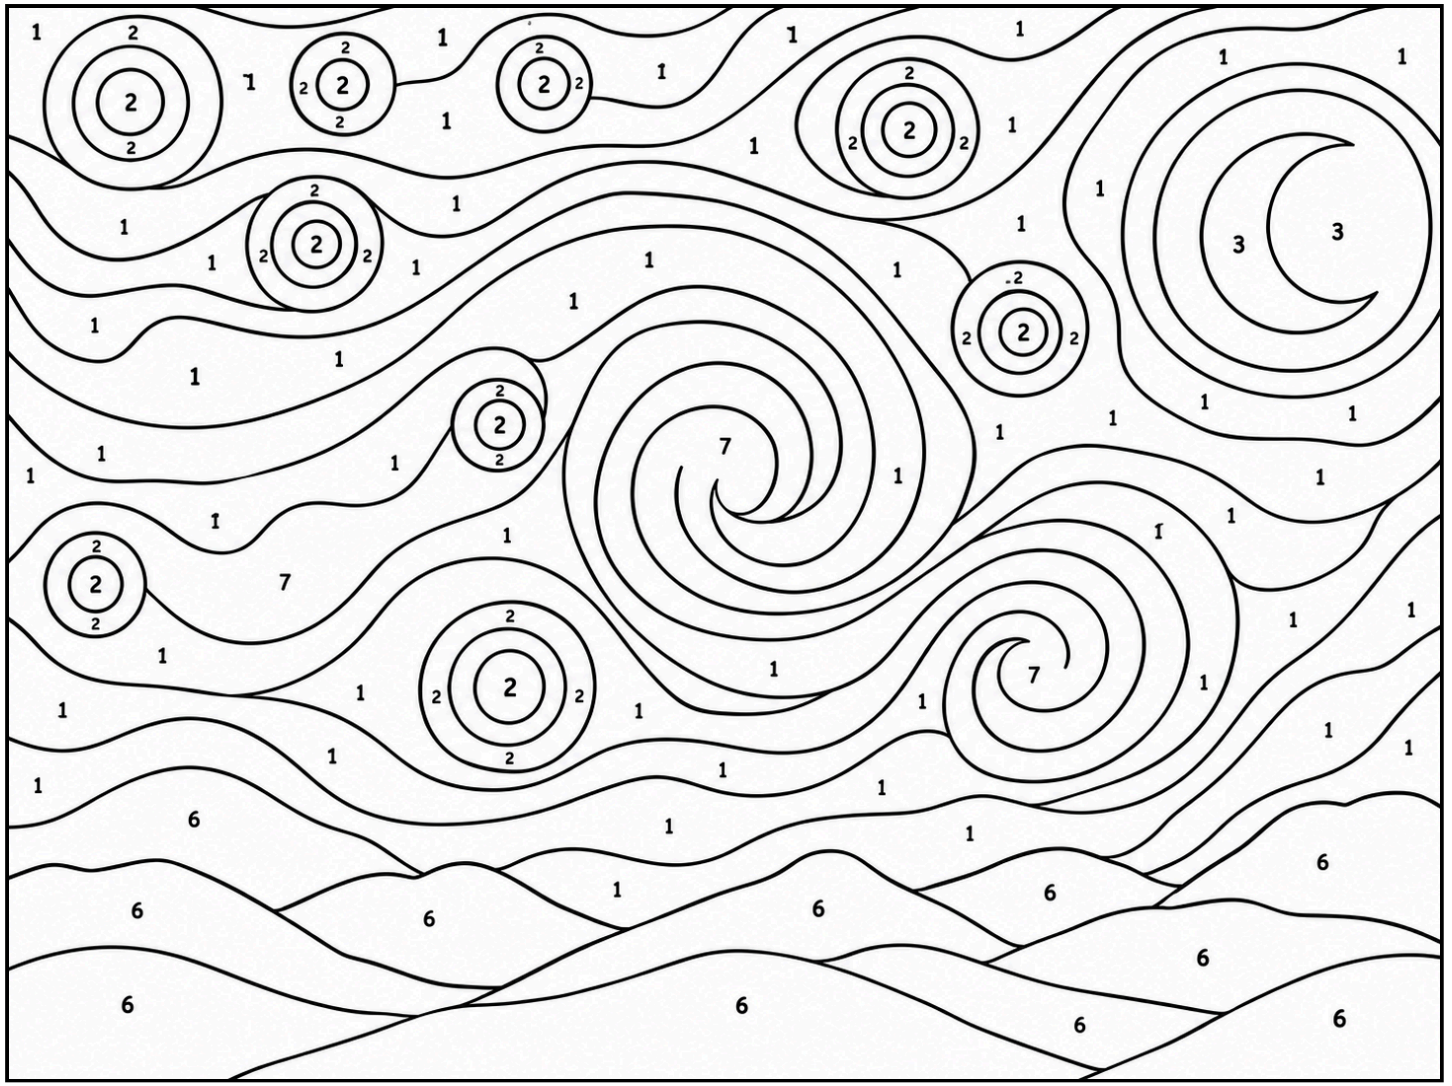

WALL
glue sheet A here, flat

line B · glue the tab of sheet B here

line C · glue the tab of sheet C here

The base is 19 cm wide. The wall is 15 cm tall, the floor 9 cm deep.

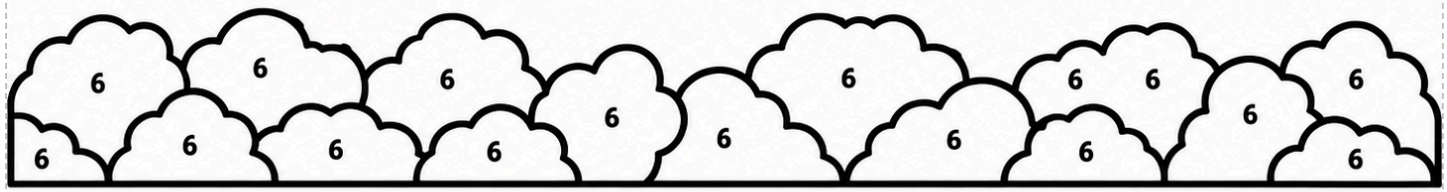

SHEET A · THE SKY · at the very back · cut along the black frame · glue flat on the wall

SHEET B · THE VILLAGE · in the middle · cut along the top of the hills (don't cut the gray dotted line) · fold the tab backward

SHEET C · THE BUSHES · in front · cut along the top of the bushes (don't cut the gray dotted line) · fold the tab backward

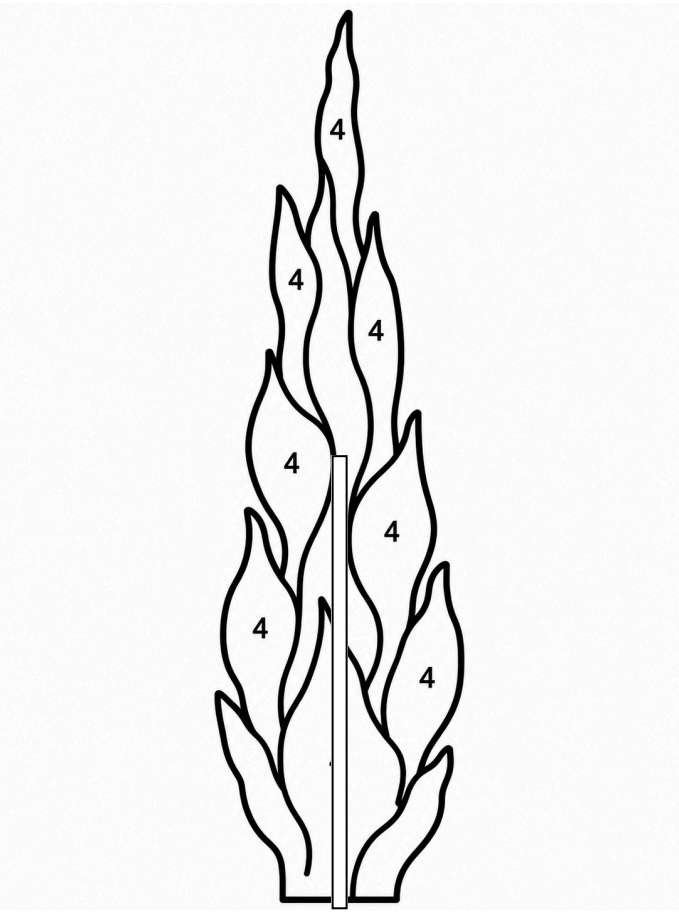

tab · fold here · glue on line C

SHEET D · THE STANDING CYPRESS · standing piece · cut out both shapes AND their slots (the thin black line) · slide them together to make a cross

piece 1 · slot at the top

piece 2 · slot at the bottom

Both pieces are 12 cm tall. The slot is 2 mm wide: on thick paper, the cross stands up on its own. Color both sides so it looks good from every side.
