The Tower of Babel in 3D

Pieter Bruegel the Elder · 1563 · The giant tower rises up in front of you

Color key

- **1** Sky
- **2** Clouds
- **3** Tower
- **4** Bricks
- **5** City
- **6** Sea
- **7** Countryside

How it works

1. **Color** the three sheets A, B and C by following the numbers. The sky, the sea and the countryside (A) are at the very back, the tower (B) in the middle, the city and the king with his workers (C) in front.
2. **Cut out** sheet A along the black frame. For B and C, cut **along the drawing**: throw away all the white above it. Keep the tab at the bottom.
3. **Fold** the L-shaped base on the dotted line: the wall stands up, the floor stays flat. Fold the tabs of B and C backward too.
4. **Glue** A flat on the wall. Glue the tab of B on line “B” on the floor, then the tab of C on line “C”.
5. **Look** from the front: the layers stack up and the painting pops out in 3D. Put it on a shelf!

You need: scissors, a glue stick and your colored pencils. Print on thick paper (cardstock, 160 g/m² or about 60 lb) or glue the sheets onto a cereal box before you cut: they stand up much better.

Tip: you can glue sheet A on the wall BEFORE you color it.

BASE · fold on the dotted line · glue A on the wall, B and C on the floor lines

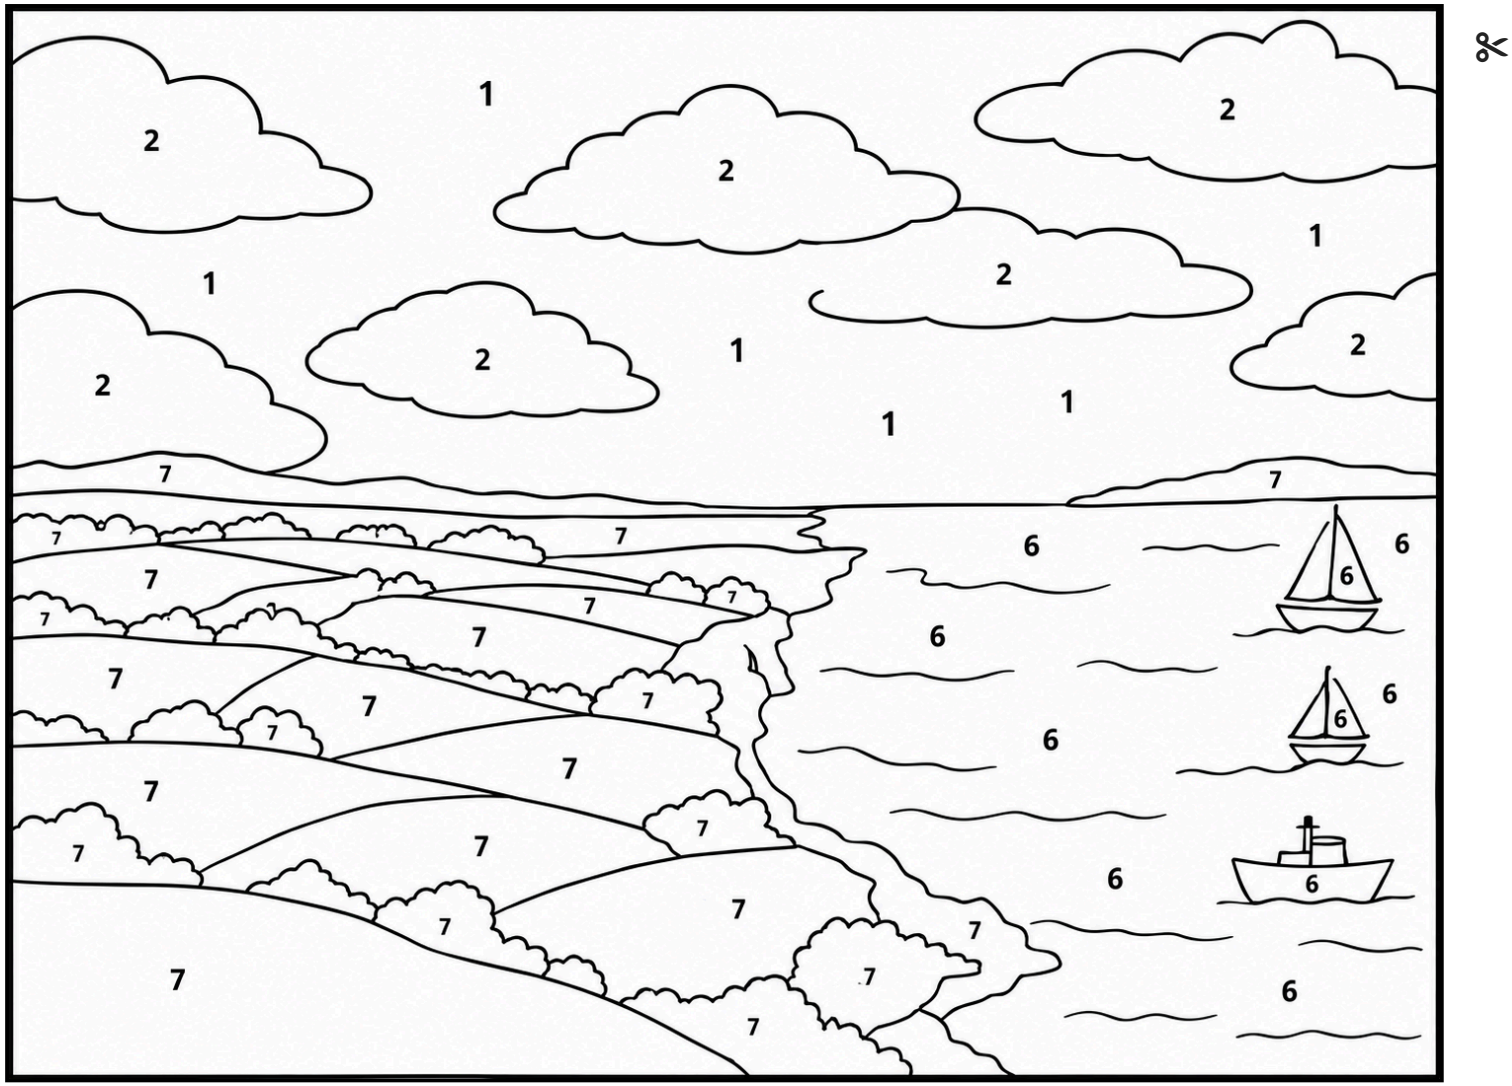

WALL
glue sheet A here, flat

line B · glue the tab of sheet B here

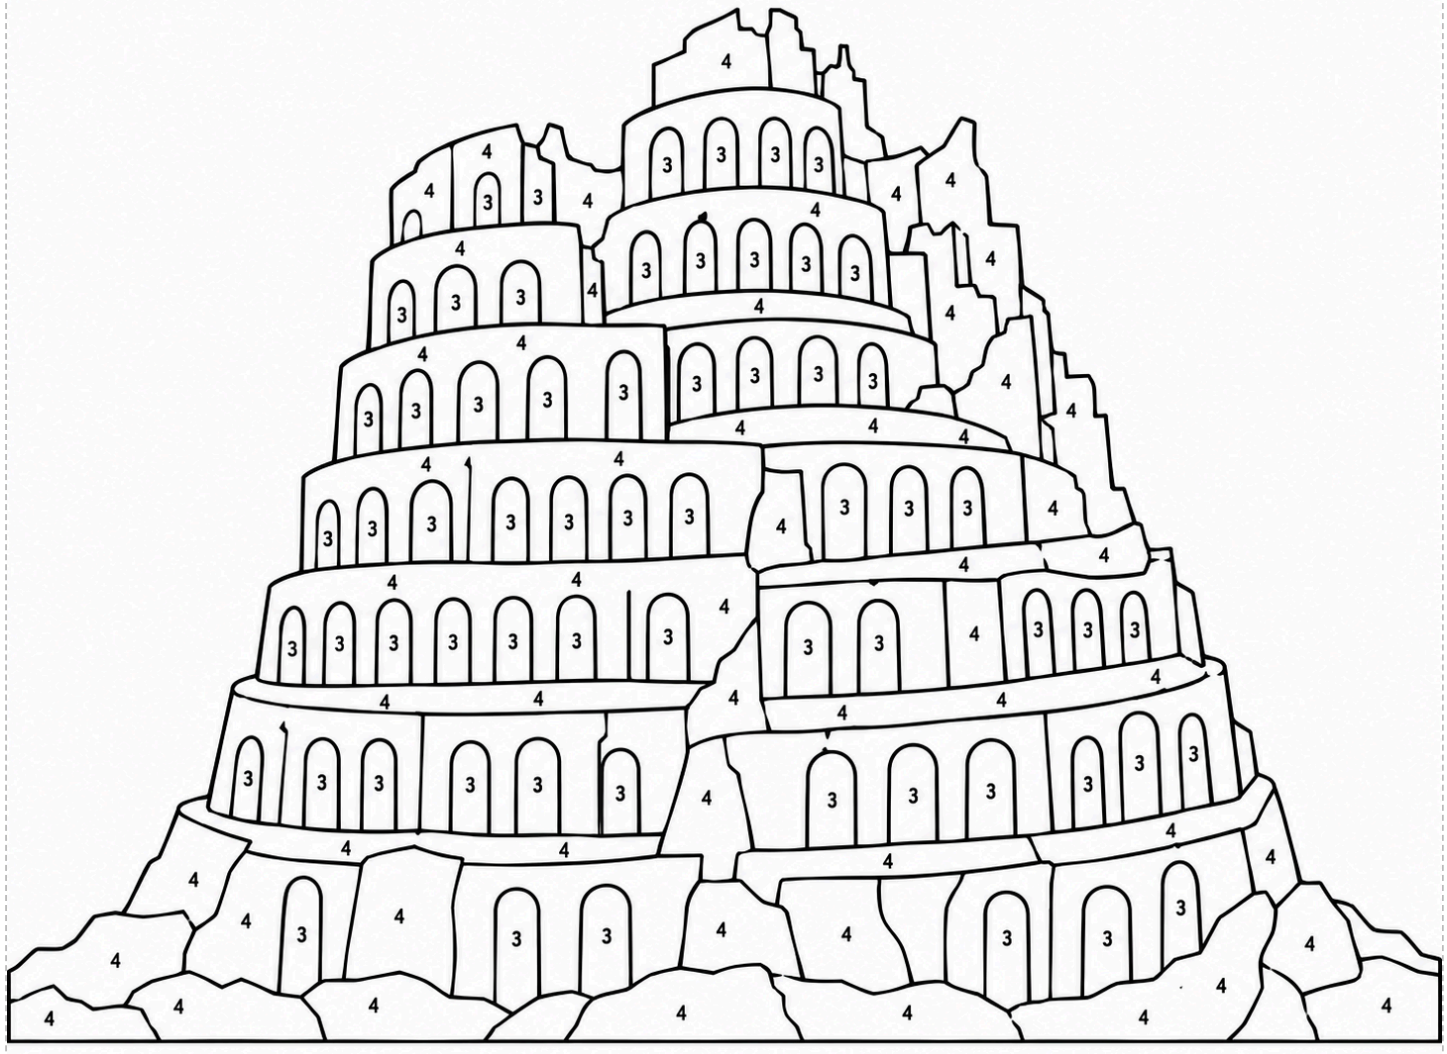

line C · glue the tab of sheet C here

The base is 19 cm wide. The wall is 15 cm tall, the floor 9 cm deep.

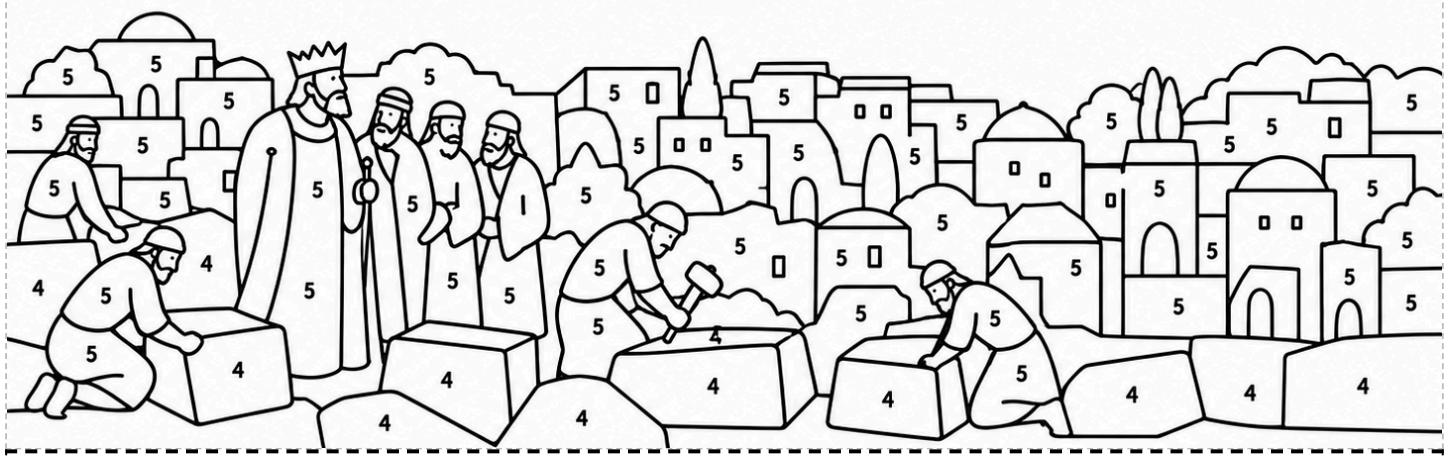

SHEET A · THE SKY AND THE SEA · at the very back · cut along the black frame · glue flat on the wall

SHEET B · THE TOWER · in the middle · cut along the outline of the tower (don't cut the gray dotted line) · fold the tab backward

SHEET C · THE CITY · in front · cut along the top of the houses and the people (don't cut the gray dotted line) · fold the tab backward

tab · fold here · glue on line C
